

16th June, 2020

Dear Parents and Caregivers

A case of scabies has been reported to the school. If your child presents with any unusual rash we ask that parents/caregivers please seek medical advice before allowing them to attend school.

Current Departmental advice states that students with scabies should remain home for 24 hours after treatment has begun.

If you have any queries regarding the above information please contact the school on 02 6344 1305

Yours faithfully

Mrs Neryle Smurthwaite
Principal
